ENVIRONMENTAL BEST PRACTICES GUIDE FOR HOT MIX ASPHALT PLANTS TABLE OF CONTENTS

LEGAL DISCLAIMER	1
SECTION ONE	4
Hot Mix Asphalt Production Emissions	
Introduction	4
Emissions Generated on Site	4
Particulates	4
Gaseous Emissions	4
Odour	5
Noise	5
Waste	5
SECTION TWO	6
Environmental Best Practices	6
Particulates	6
Plant Yard	6
Aggregate Delivery/Stockpiling	6
Material Transfer	6
Cyclone / Ductwork / Knockout Box	7
Rotary Air Locks / Vane Feeders	7
Tipping Valves	7
Baghouse	7
Wet Scrubbers – Centrifugal/ Venturi	9
Settling Ponds	9
Exhaust Fans / Damper	10
Damper	10
Controlling Emissions and Odours	10
Gaseous Emissions/Burner	10
Burner	11
Air Seals	11
Damper	11
Dryer Flights	11
Primary and Secondary Collectors	11
Hot Oil Heater Systems	11
Thermocouples and Pressure Sensors	12
Trucks and Loaders	12
Fuels	12
Record Keeping	12
Delivery & Storage of Asphalt Cement and Fuel	12
General	12

Fuel Storage and Fuel Delivery	12
Asphalt Cement Discharge and Storage	12
Anti Stripping Additives	13
Asphalt Cement Mixing/Pumping Temperatures	13
Plant Mixing Temperature Chart	13
Discharge Areas	13
Noise	14
Site Management of Waste and Groundwater	15
SECTION THREE	16
Records Keeping and Complaint Response	16
Records Keeping	16
Complaint Documentation and Response	16
GLOSSARY OF TERMS	17
KEY REFERENCES	19
APPENDIX 1	21
APPENDIX 2	23
APPENDIX 3	29
APPENDIX 4	30
